Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their places in the structure.

This business has now become so well systemized that only a small margin is left in knowing before-hand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any interested can examine specimens of the work at the factory near the River Path, or at the store of M. St. Jackson, in Exchange-st., and at either place any article may be obtained or large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by constant perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized is the business that the man through now Clear of building in the old and slow and imperfect methods.

OLIVER A. LUNT'S

Dancing Academy!

Lewis' Block—Main St.

JUVENILE CLASSES will commence on WEDNESDAY, Sept. 10th, at 2 o'clock P. M. Adult Classes can be formed to suit the convenience of pupils. The subscriber is most happy to inform its patrons, and the public generally, that he will present to them the latest and most fashionable styles of Dancing now taught.

Amongst the new Dances are several which are now taught in the best Schools of London and Paris. These include the Varsovienne, Coeka, Redowa Waltz, Esmeralda, and the various forms of Polka and Redowa Dances.

New Styles of Quadrilles and Waltzes will also be introduced, which, with the superior advantages offered pupils for practice, will, it is hoped, merit the approbation of all.

For terms, please apply to the subscriber at the Hall, Lewis' Block, Main street.

Sept 18th, 1856. OLIVER A. LUNT.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

THIS House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is airy, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and parties calling to transact business in the city, or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of its guests, the proprietor hopes to receive a liberal share of patronage.

NATHAN LERIT, Jr.

STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

G. W. RICKER, would respectfully announce to the Traveling Public that he has re-opened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to constitute it a First Class Hotel.

This is the most centrally located House in the city, situated directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes walk from the State House.

Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.

Books for all Stages leaving town will be kept at this House.

In connection with the above are good Stables with attentive and careful Hostlers.

CHEAP AND SAFE LIGHT.

NEWELL'S PATENT SAFETY LAMP AND LAMP BURNER. Warranted to prevent all accidents from the use of Burning Fluid, Fluid Oil, Rosin Oil, Camphene and all other explosive compounds used for the production of light. This invention has applied to Common Fluid Solar and Camphene Lamps, Hang Feeders, Fluid Holders, Lanterns, &c. &c.

We respectfully invite the attention of the public to Newell's Improved Solar Fluid Lamps in the argand form, which gives a steady, bright and clear flame, the nearest to gas that has ever been produced, the cost of burning being less than one cent an hour.

These Lamps are particularly adapted for Churches, Hotels, Factories, Stores and Parlors. Oil Solars can be altered easily to the astral shade. Common Fluid Lamps can be changed to Safety Fluid Lamps for 25 cents.

Professor Silliman says, "All that go named burning fluids are explosive, whether liquid or colored, and to pretend that they are not so is to deceive the public, but with the protection above named, I should have no hesitation to use it, and do with confidence recommend it to my friends and others as entirely safe on the subject, always protesting against its employment only which has produced so many distressing and fatal results."

These Lamps have been extensively used in all parts of the United States for more than four years, and there has not the slightest accident occurred with them. They have the sanction of the greatest scientific skill of the country, such as Prof. B. Silliman, Prof. J. Webb, Dr. Charles T. Jackson, Dr. A. A. Hayes, &c. &c.

We keep constantly on hand the best Burning Fluids.

CAMPHENE.—Boston, July 1, 1856.—The subscriber, having for several years past manufactured Varnishes for Piano, Highlow & Hyde of Newark, N. J., have been induced to inform those interested in the sale and consumption of Varnishes, that he is now engaged and interested with Messrs. Pittsburgh, Valentine & Co., of Boston, in their Varnish establishment, and with them would solicit for the firm a continuance of his friends and the public.

JOHN BACCOCK.

DISEASES SUCCESSFULLY TREATED.

REMARKABLE CURES!!!—Words of Admiration and Caution.—Encouraged by the very liberal patronage I have received upon me by my friends and the public during the past few years, and the extraordinary success which has attended my efforts for the cure of ill-health, I am determined not to let any exertions to contribute to the fullest extent to preserve you (if possible) those in my undertaking.

Third diseases heretofore considered incurable can be conquered. I have abundant proofs in my own experience. To which a few particulars cases, Enlightenment Mrs. F. cured of running tumor, after having been given up by my family physician to die. Mr. C. cured of a violent eruption over the head and parts of the body, and pronounced incurable by one of the best Physicians in Norfolk county. Mr. S., client of consumption. Mr. B. of liver and kidney complaint. Miss T. cancer in the breast as large as a quart bowl. Mr. B. of secondary symptoms, after having been rought near the grave under the treatment of other respectable physicians. Miss M. of consumption. Mrs. D. very alarming consumptive symptoms; Mrs. S. holding on with acute cases and fit, calculus. I will gratuitously one the full name of any of the above, if they will by call at my office.

Hope, then, to for the sick.—I do not make a business of sending medicines to agents, nutrely for speedy and sure cures upon being able to recommend the medicines myself. Persons can call by letters and have their medicines securely express.

Advice I am always glad to give freely, and persons calling upon me need not fear under any obligations to make medicines, unless they decide to do so.

Words of Caution.—Made an age of new things among much good there is much humbug. Be not over-anxious to be experimented on. For ten years I have found a great demand for info and Consultations, and the public may say that they will do what is required for them.

I warrant a cure in all curable cases. If a person takes medicine of me and is not benefited, they can have their money by applying at my office. My book of 64 pages will be sent to any part of the country for 25 cents.

The following is my advertising card:—

DR. D. SPEAR, INDIAN DOCTOR, so much celebrated for his remarkable cures, may be consulted at his office, No. 13 Kneeland Street, from 9 A. M., to 9 P. M., upon a thorough examination and action of the human system, free of charge.

As usual, Dr. Spear, gives special attention to chronic forms of disease, Humors in the Blood, Dyspepsia, Consumption, Spinal Diseases, Urinary difficulties, abnormal condition of the Kidneys, Liver and Heart, Rheumatism, all female diseases, especially Leucorrhœa, Ulcers, and unnatural suppressions, weaknesses and debilities.

Dr. Spear is now being visited by one thousand patients every month, some of whom travel hundreds of miles to consult him and to obtain his remedies.

Dr. Spear will warrant a cure in every curable case. After having his remedies administered, if a cure is not effected, he will pay any other physician who will effect a cure, if he will not exceed $100. Persons at a distance can consult him by letter, enclosing a stamp, to pay the postage.

THE TAILOR SEWING MACHINE.

This new and beautiful machine, designed for every variety of Family Sewing and Tailoring Work, stitches exactly alike on both sides, and will sew, hem, fell, bind, stitch the same as sewing by hand. The superiority of this machine over every other is at once apparent from the fact that it actually sews, making its with matchless precision, its ends quite like hand work, in all its changes—running, fastening, &c., by every lock, of yarn or twist, and also stitching, enabling a person to adapt the stitch to the work or fabric as desired. Every part is perfectly simple and easily understood by any one. Using a single thread and the shuttle or threading needle, that goes back and forth, locking at every stitch, it will do all kinds of sewing, from the finest muslin to the coarsest cloth, and the tailor's subscribers for six dozen hands. With the turn of a single screw, each is different, and is obtained, in which a person with the machine can soon become expert. No threading, leathing, looping, chaining, tambouring, slipping, tipping, (unstitching, but recollecting sewing.) Every machine is warranted perfect, and finished up in a variety of elegant styles, truly making an ornamental seamstress. Manufactured only by Lerow & Davis, Exhibition and Salesroom, 352 Washington Street, Boston.

650,000 Acres Selected

Pine and Farming Land

IN MICHIGAN.

THE SAINT MARY'S FALLS

SHIP CANAL COMPANY

OFFER for sale these Lands, which are principally situated in the lower Peninsula of Michigan on and in the vicinity of the large streams and rivers, easy of access, and selected under more favorable circumstances than

Any other Western Lands,

Were chosen with particular reference to their location on the streams and the quantity and quality of the pine timber. On this account,

For Lumbering Purposes,

They are very desirable and valuable. The streams are large, and capable of floating logs at all seasons of the year, with harbors at their mouths, on the Lake. At many of these points settlements and extensive lumber operations are formed, and conducted with uniform success, proving already the most profitable lumber operations in the Union, and having access, by means of Lake navigation, to

CHICAGO, DETROIT,

and the other great Lumber Markets of the country.

Tracts of from 40 to 40,000 acres

will be found at convenient points, affording opportunities for either a small or the most extensive lumbering operations. A large portion of these Lands are among

The Best Farming Lands of the West,

and as they contain enough of the FINEST PINE TIMBER to more than pay for the land, leaving wooderful buildings, and other improvements, of the very superior inducements to farmers seeking a western home.

The Climate is Mild and Equable,

and soil and climate both suited to all the grains, fruits, and produce raised in the most favored portions of the West.

Companies of 10, 10 or 20 Persons,

with their families, will find location just suited to the formation of a settlement, with good water power, and convenient access to neighboring settlements.

TERMS:

One-fifth will be required at the date of sale, and the balance in one, two, three and four years, with interest at six per cent. per annum.

The Company have full and complete descriptions of each tract of their lands, from actual examination, by several different parties, with accurate maps of each township, according to government surveys. These may be seen at the

Land Office of the Company in Detroit, Michigan.

Copies of Maps, field notes, and other information concerning the lands will be furnished, without charge, to those wishing to purchase.

Large Maps of the State, showing the lands of the Company, will be found at public places in most of the principal towns in

What Next?

Buchanan being elected by a meagre sectional vote, and the so-called Democratic party having secured power in all the Departments of Government, the question comes, what is to come? The first fact is that the election is regarded, not merely as a triumph of the South and the Slave power, but as a triumph of the extreme fire-eating and most ultra portion of the South—the anti-union and sectional party of Calhoun nullifiers. Mr. Buchanan may not be in temper and spirit exactly of this order, but he will be exactly what the controllers of the party compel him to be. If he had a drop of the blood he only feels in the backbone of Andrew Jackson or Zachary Taylor, we should have *hope*, as a grain of mustard seed, (not *faith* or even the size of that pusillanimous or acrid.) But no one who has known him well for all his life, and who himself supported him, said, "Buchanan, Sir, is a wet rag—yes, sir, a wet rag!" There might be some hope if the sacred settlements of the Democracy in the free States, would show some will, opinion, or earnest purpose. If they would for once exclaim and assert a right to be heard as to the future policy, and would insist upon something that was bearable—some regard to free labor, some security for free settlers, some chance for freedom in Kansas. If they would say distinctly and heartily to their Southern task-masters, see what your policy can bring us to? Look at Democratic Maine—in other years sure, unwavering for us—now she has tried the case twice, and gave 50,000 in her first verdict, and on a re-hearing she has re-affirmed her verdict, with interest at 5 per cent a month. Look at New Hampshire—the rock of Gibraltar for no democracy—drowned and taken to be impregnable, now with her six thousand majority against us. Look at New England, giving at least one hundred and fifty thousand majority against Mr. Buchanan. Look at New York, with her one hundred and seventy thousand majority against him. Mc Lean with her twenty thousand. Ohio with her thirty or forty thousand, and the thousands yet unascertained in free Wisconsin and Iowa. And although he has secured by plurality two or three free States, it is doubtful if he has an absolute majority in any one of them, to reflect the mighty overwhelming mass that has repudiated him in the free. Is not the record a startling one? Does it need a second Daniel to interpret the hand writing on the wall, "MENE, MENE?" And when we turn to the Slave States, there only up even the unexpected vote in opposition to the ultra democratic party. No doubt the great mass of the conservative, decent, respectable men of that section voted for Mr. Fillmore, as the Only hope there of defeating Mr Buchanan. It may not be justly charged as an anti-slavery vote, but it is unexceptionable as showing that there are men and elements in the Southern States, which may yet be the nucleus for a party here, based on the Constitution and willing to meet on the common ground of non-intervention politically with slavery in the States, and non-extension of the system into the Territories. The actual majorities for Mr. Buchanan in all the Slave States, will not we think, equal the majority against him in New York alone.

Now we say in all frankness and faithfulness to our democratic brethren, you have nothing to boast of,—your victory has no moral power, you are defeated in all the essentials of a great victory, except in action, by chicanery frauds and single State, and thus obtaining the spoils. You have not the heart of his own people with you, your candidate is mere pasteboard, your assumed security is a delusion—The land of the church and the school house repudiates you, you are loathing from the whole Free States of New York and Ohio across to Michigan here you across the Lakes like and Wisconsin, and they do not allow you to touch the earth before you are again on the air, finding no resting place, unless it may be a growing disgrace to be in the march of the corporation-ridden State of New Jersey.

Is it for such a party to boast and take airs, as if their majority stood strong? No gentlemen, we tell you and your Straight Waiting allies, that the South has bought you, and the South will use you; you may have offices, but you cannot have influence, nor benefit shares of the policy of the incoming administration. The whole power, patronage and influence of that administration will be in the hands of the present, to carry slavery wherever they may feel the importance of literally sustaining it. What is not an agency, worth, when accomplished not less than 1700 pastoral visits the last year,—the most of them to the poor the sick, and the afflicted, and which assisted with clothing and other necessaries of life some 200 families?

Not the less of the benefits of his mission consists in the security which it might bring to, and in some measure does, against imposition in the solicitation of charity. There also individuals, in this city and out of it, who make a business of begging from door to door who need a scan, in some instances, to carry away their accumulated luggage, who contrive by this means, to get their living, or at least their rum. (Now there is no way to stop this nefarious traffic, but by employing a shrewd and experienced man, like Mr. Wells, to look into all cases of pretended distress, and then refer the street paupers to him.

Next Sabbath, let it be remembered,—the Sabbath before our annual Thanksgiving, is the time for our principal contribution for the poor,—Thedoor to the avails to be distributed under the direction of the City Missionary. This is not a contribution for Thanksgiving merely but for the relief of the suffering poor through the approaching winter.

Our last year's contribution was $436. We hope it may be increased the present year; and that the proceeds of it may carry relief and comfort to many of the sons and daughters of affliction.

THE FREE DENTIAL ELECTION. We republish our table of the probable electoral votes of the States, corrected according to the very latest reports. How many new phases in the election will present before the result is decisively known, no mortal can conjecture:

	Fremont.	Buchanan.	Fillmore.
Maine,	8		
New Hampshire	5		
Vermont,	5		
Massachusetts,	13		
Rhode Island,	4		
Connecticut,	6

Of the above States, Texas, California, Illinois, Louisiana, Tennessee and perhaps Illinois may be considered as still involved in doubt though the probabilities are too strong to be resisted, that they have gone for Buchanan.

BURNING OF MOSCOW.—Our amusement seeking readers will bear in mind that this evening is the last advertised chance for witnessing this splendid Diorama, together with its pleasing adjuncts. This Exhibition has been fourteen years before the American public and has been most favorably received everywhere. The Diorama Painting is a very pleasing and instructive feature of the entertainment, while the accomplishes of Mr. Gardner, the Ventriloquist, guarantees a merry laugh to each patron—no one can help laughing at the comicalities of his wooden dummies having been found this morning in a state of nudity, minus their clothes, buttons having been found this morning burst from the coats of the laughing crowds last evening. Go by all means.

THE CONCORD GRAPE. This new variety, which caused so much discussion at its introduction about four years ago, is settling down to a place among the standard fruits in most gardens.

No grape was ever introduced with a louder flourish of trumpets, and few were ever assailed with severer criticism.

It is gradually working favor, and appears destined to become popular where the locality will not ripen.

A fruit grower in Connecticut recently informed us that it has done remarkably well with him, it ripened this year by the first of Sept. while its Diana did not mature until the last of the month. It is early maturing, is valuable for many of the early markets. We hear of gentlemen who are making large plantations of it.—*N. York American Agriculturalist.*

A Special Concord Grape Prize Fruit. A year in Bangor! Mr. Wallace raised some very fine clusters on a vine planted last year. Vines can be had the next Spring at a reduced price.

MEETING OF THE ELECTORAL COLLEGES. The Presidential Electors, chosen on the 4th of November, will be called by the Governors of the States to meet in each State capitol on the first Wednesday of December, and cast their votes and choose a messenger to carry it sealed to Washington. On the second Wednesday in February the returns will be counted by Congress and declared.

IMPORTANT DECISION.—The Supreme Court of Connecticut, sitting in Hartford have decided that the Prohibitory Act known as the Maine Law" is constitutional. We understand the decision was two to one carried up for its decision.

A LOAD OF THE CREATION. We have received from Messrs. A. Williams & Co. No. 100 Washington Street, Boston, a book with the above title. It was first published in Little's Living Age, which is sufficient guarantee of its readable qualities. It is for sale by E. F. Duren.

The City Mission.

MESSRS EDITORS: I was glad to see in your issue of yesterday, the Report of our worthy City Missionary. Though longer than some of your communications, I hope it may be read and pondered by all our citizens; and that for two reasons: First, that we may learn the value of this agency, and, secondly, that we may feel the importance of literally sustaining it. What is not an agency, worth, which accomplished not less than 1700 pastoral visits the last year,—the most of them to the poor the sick, and the afflicted, and which assisted with clothing and other necessaries of life some 200 families?

Not the less of the benefits of his mission consists in the security which it might bring to, and in some measure does, against imposition in the solicitation of charity. There also individuals, in this city and out of it, who make a business of begging from door to door who need a scan, in some instances, to carry away their accumulated luggage, who contrive by this means, to get their living, or at least their rum. (Now there is no way to stop this nefarious traffic, but by employing a shrewd and experienced man, like Mr. Wells, to look into all cases of pretended distress, and then refer the street paupers to him.

Next Sabbath, let it be remembered,—the Sabbath before our annual Thanksgiving, is the time for our principal contribution for the poor,—The deserving poor of the avails to be distributed under the direction of the City Missionary. This is not a contribution for Thanksgiving merely but for the relief of the suffering poor through the approaching winter.

Messrs. Editors:

An anecdote told by Mr. Gough, in his Temperance Lecture on Wednesday evening, reminded me that I once *perpetrated* the following imitation of it—which was thrown into my "receptacle of things lost upon earth," and has just now been *fished out.* G. K.

A Dry Essence.

Falsta I, pot-valiant knight, forsooth—
If one Will. Shakspear tells the truth—
Would not, *compell'd*, his "reasons" offer,
For *drink* he might choose to proffer,
Were there for every urn a reason,
"Plenty as blackberries" in their season.

Touch the mood of one, the crack
Of thom "addicted to" their "sack"—
What wonder that his followers, therefore,
Should sing, without a why or wherefore,
"Forswearing their potations," swallow
Their drams, and in the gutter wallow.

But times have changed—and to prove now,
Mother plot ground, have I had to bow—
As to a sovereign does the minion—
To the strong tide of Free opinion,
Which asks a reason for the abusing
Of what we've been abusing,
So strong is deem'd this requisition,
That—to comply with this condition—
For reasons, in such dose of dumps
Oft puts cap to his very stumps.

Joe Gum, of eloquence—though in truth
A tipple from his very youth—
Was what is called a clever fellow,
And rare, all afternoon, got mellow;
Then off, soon d give, as an excuse,
The kind of food prepared for use;
"He'd eat for dinner—swill dry
One was, on *such* dish *direly*—
"And *boiling, split pea!* was not much better,
"He had proved to have very bitter."

But things soon grew from bad to worse,
And Joe's appetite of course;
His morning draughts he now must take,
And for noon's, "for distinction's sake,"
Public opinion asked in reason
For cause of such undoing of the season:
Joe was often found at fault,
And at length began to halt,
A friend accosted him one day,
When about two-third "over the bay"
With pray know the reason why
This sore, he became so dry.
"The fact is," said Joe—for though obtuse,
He now prove handy at excuse—
"I have to found in that I'm dried—
"*We're going, at noon, to have salt fish.*"

Persons owning of families which ought to be remembered on this approaching Thanksgiving, will please leave the name and residence at either of the book-stores, as early as Monday next.

PERSONAL. E. M. Thurston, Esq., left in the M. Sanford yesterday, for his home in Kansas. God grant that it may sometime be a free home.

THIS IS THE LAST DAY of the Exhibition of the Trial of Our Saviour in his City. Open this afternoon and evening at Johnson's Hall. The great work of art, is said by many to be superior to any thing ever before exhibited in the city. Let the Hall be jammed and thereby show that the citizens of Bangor are not behind their sister cities in appreciating works of true merit. Explanatory lecture at 3 and 8 o'clock. Ticket only 15 cts.

Our thanks are due to Hodgman Carr & Cos. Express for papers.

Notice to Mariners.

MT. DESERT STATION, NEAR STEAMBOAT, MAINE, *September* 20, 1856.

SIR: I have the honor to communicate for the general benefit of the navigation of Massachusetts Bay, between Point Allerton and Plymouth Harbor, and for the information of the Light-house Board, the following extracts from a report made by Commander H. S. Stellwagen U. S. N., Assistant in the Coast Survey, on the progress of hydrographic work executed within the season in that vicinity under his command.

"Several rocks were found extending in a reef from Scituate light towards Minot's light-boat, the outer one of which is the ledge reported by me in 1853, and subsequently by Commander Dale. I have located it correctly by angles for the first time, and carefully triangulated the peaks, some nine in all, which make up the reef. The positions are shown on the accompanying sketch, within a red line, from which the natural connection of the rocks can readily be inferred. A good depth of water occurs between the rocks, yet, by reason of their proximity to each other, the vessel which they form is very dangerous. These rocks should be marked by buoys.

"The drawing shows also the position of a sunken rock, with six or seven feet water, off Webster's flag-staff, lying three quarters of a mile outside of the rock on which a buoy is placed, likely to lead vessels up on the outer rock.

"A rock near Saquish Head, entrance to Plymouth Harbor, is dangerous to vessels beating in. It is quite sharp and not easy to detect. The position is marked on the enclosed tracing."

In addition to those mentioned, I have to report the determination of three rocks, partly seen at low water, off Holmes (Manomet) Pt. On these a British vessel (the "Mary Ann") was lost some years ago."

Commander Stellwagen has also determined and reported the position of a detached and dangerous rock lying off Indian Hill. This was found about four miles to the southward of Manomet Point, and has so little as six feet of water on it. The existence of the rock seems to have been very little known.

I would respectfully request authority to publish this communication in the usual form, and that a copy of the same may be transmitted from the Department to the Light-house Board.

Very respectfully, yours,

A. D. BACHE,
Supt. U. S. Coast Survey.

Hon. JAMES GUTHRIE,
Secretary of Treasury.

COLONEL FREMONT. In spite of the adverse result, no party ever had a more gallant or more excellent, candidate than Colonel Fremont. No man under such circumstances ever bore himself more ably, more prudently, or more discreetly, through such a contest. Although he has been assailed with malignity and license of calumny seldom paralleled in the history of the country, all this storm of detraction has never moved him for a moment from his propriety, or led to a single act unworthy his character or his cause.

Whether Col. Fremont is ever to be a candidate hereafter, must be left to the future. It would be neither just nor wise to open another Presidential canvass now. These contests must always take their shape and character from the events and the emergencies of the times. The country must have some expression of the new administration, before it can act upon the task of superseding it by another.—*New York Times.*

John Van Buren let the editor of the New York Times that Kinderhook would give 100 majority for "Buck and Breck." It gave, however, 136 Fremont majority. The editor says he does not smoke, but that he has some excellent Free Soil friends who do, having served the cause of John in 1848.

A FEMONT HORSE.—A correspondent communicates an amusing account of an election day incident. A horse belonging to a Fremonter, in Sippican, was hired by two Buchanan men on Tuesday, to go to Rochester Centre to vote. The horse had not been driven far when he became refractory, and would not budge an inch. The carry was far advanced and not more could be lost. They coaxed and whipped and used every possible expedient to induce him to move forward, but all was of no avail. A young lady, seeing their condition, went to the door and told them it was no use to urge the animal, for he was a *Fremont* horse, and his being aware of its cargo, was the cause of his stubbornness. It was even so. The unfortunate Buchanan men were obliged to return, and this being the only horse that could be procured, they were compelled to remain at home, and lose their votes, which were greatly needed, as will be seen by the following report of the vote in Rochester:

Boston Journal.

A REMARKABLE THEFT. A great excitement has lately been produced among the lovers of fine arts and picture collectors in England in consequence of the robbery of seven of the choicest gems from the gallery of the Earl of Suffolk. The pictures stolen were the Virgin and child of Leonardo dal Vinci, the best work of his pencil in Great Britain, and said to be worth $25,000. The other paintings were originals by Poussin, Annibal Carracci, Guido, Vandervelde, Van Archeyder, and others all of great value. No clew has been discovered of of the thieves or the pictures, the latter being supposed already in the market in Holland whose they may find purchasers before their history is known.

EXCELLENT REPARTEE. The Rev. Dr. M'C ——, minister of Douglas in Clydesdale, was one day dining in a large party, where the Hon. Erskine and some other lawyers were present. A great dish of cheese being presented after dinner, Dr. M'C, who was extravagantly fond of vegetables, helped himself much more largely than any other person, and as he ate with his fingers, with a peculiar voracity of manner, Mr. Erskine was attacked with the idea that he resembled Nebuchadnezzar in state of condemnation. Resolved to give him a hit for the apparent grossness of his taste and manner of eating, he with a dressed him with "Dr. M'C., is it true in mind of the ox-fed king Nebuchadnezzer," and the company were beginning to titter at the ludicrous allusion; when the reverend vegetable devourer replied, "Ay, do I mind you of Nebuchadnezzer?—That'll be because I'm eating among the bruites!"

"PLAYING APPLETON." The Chelsea Telegraph and Pioneer says:

"The boys of Chelsea have a new play. Going down Worcester street, last evening, we observed that the boys were having a good time at something; drawing near the scene, we observed a number of young lads had crowded round an urchin who was dressed on a high door step, making a speech while the others, at intervals, cheered him vociferously. They were, they said, playing 'Appleton.' The lad on the door step was making a speech of thanks to his constituents for their suffrages in electing him, that day, to so high an office. At the conclusion of the speech and cheers, another lot of boys set up, and announced that Chelsea has pushed it's cup of promise from their lips, and upset the mustard pot, by giving a majority for Buchanan. (Cheers for Chelsea.) At this the apple-boy retreated round a corner, and three more cheers for Buchanan concluded the play."

EXHILARATING.—SALE OF APPLES. The Nashville (Tenn.) Banner says:—"We have the pleasure of putting on record probably the best sale of fruit ever known in this country, and that, too, of Tennessee fruit. The specimens of apples exhibited at 50 per bbl. were W. W. Dodge, artist, raised on a farm in Cumberland county, on the mountain, were sold at auction on Wednesday night. They were sold by the half dozen, and as high as five dollars an 1 twenty cents per half dozen paid. The whole lot sold, amounting to a little barrel and a half, of seven different varieties, brought one hundred and eleven dollars. Any of our famous fruit growing States in any section of the Union can equal this, we should like to hear from them."

Mr. Franklin Pierce is called upon to make Kansas a free State, as he has four months left for business before he retires as a finality, and it is not considered fair for him to leave this job to Buchanan who will have enough to keep him busy giving out the offices. Mr. Pierce may as well do one good thing before he goes and thus enjoy something agreeable in his rear.—*New Bedford Mercury.*

Letters of the South addressed to John C. Fremont within the last four months have been repeatedly intercepted and broken open. One postmaster in Virginia even went so far as to refuse *point blank* to mail a letter addressed by a Virginian lady to Mrs. Fremont who was her friend.—he (postmaster declaring that no letter with that address upon it should be mailed at his office. And he kept his word.—*Courier and Enquirer.*

It has been alleged that Fremont was tendered the honor of a nomination by the Democracy. This has been denied. Speaker Banks, at the late meeting in Freeport, Ill., referring to this matter said—according to the Chicago Democrat—

Why do they speak of Fremont as "right metal?" Because he repelled their pro-slavery overtures. (A voice—"That's decided.") It cannot be—the overture fell on these ears. (Loud cheers.) A prominent Southern man in my presence asked his opinion on the slavery question, in reference to becoming a candidate for the Presidency, and replied,—"Presidency or no Presidency, living or dying, I am opposed to the extension of slavery."—(Prolonged cheering.)

NAMING SHIPS. To find a short (as it should always be) pithy, euphonious appellation for a vessel, is not an easy matter, and consequently many of the names given to water craft are absurdly long, clumsy and intelligent. Thus the names, "City of Philadelphia," "City of Glasgow," "Sovereign of the Seas," "Pride of the Ocean," &c., are open to this objection. A Yankee writer thus humorously discourses upon this subject:

"Namin' a ship is one like namin' a baby—first 'proprietress', next, or 'secondly,' beauty, Call a gal Prudence, and she'll turn scatter-witted as a hen turkey. Call her Grace, and see if she ain't orkard. Beats all the 'poetical, moranic, sentimental-like way folks has got of namin' vessels Jupiter and such has all exploded to nothin.' Clippers is in and gundaloes is out. There's the White Squall an' Black Squall, an' all kinds of collored squalls. There's the Greyhound an' Hellhound.—There's the 'Wings of the Mornin' an' the Tales of my Grandfather.' There's the Westward Ho and the Rake's Progress, all up for California, sharp as razors, an' bound to be thar in seventy-five days—heck or nothin'. Flyin' Cloud, Flyin' Fish, Flyin' Brick, Flyin' Squirl, an' Flyin' Ointment. I don't go for yours tearin' slapdash figured style of craft, and don't want to see my gal a Bloomer afloat, or ashore. Always name your vessel after the captain's wife or gal out of Scripture, and then your safe against pirates and poetry."

A witty druggist, on a cold night last winter, was woke up by a terrible rapping at his door. Going down he found a poor fellow who wanted to purchase a dose of salts. The shop was entered, the dose prepared, and a half dime put in the drawer. "How much did you make in that operation?" asked his wife, as he got into bed. "Four cents," was the reply. "A shame it is," returned the irritated dame, "for a man to disturb your rest just for a dose of salts." "Recollect, my love," said the druggist, "that one dose of salts will disturb the man's rest more than it does mine, and reflect that these little inconveniences always work well in time."

INTERESTING CIRCUMSTANCE. At the town meeting in Mendon on Tuesday last, pursuant to a vote of the town requesting it, Major Johnson-Logg, Benjamin Davenport, Esq., and Benjamin Bates, Esq., all of whom voted at the first election of Jefferson in 1800, came forward and cast their votes before the poll was opened to other voters. It is seldom that the infancy and the maturity of a great nation are connected together by such a powerful association as inaugurated by these aged men shaping its destiny to day, who gave impulse and direction fifty years ago!—*Milford Journal.*

At a distribution of prizes in a German village, a little girl, seven years old, whose parents had just been turned out of their lodgings, because they had failed to pay their rent, was asked by the rector—"Have you studied sacred history, my child?" "Yes, sir." "Do you know the history of the creation?" "I know that God made all." "Why were Adam and Eve turned out of Paradise?" The child hesitated a moment, and then fixing her eye on the examiner, replied—"*Probably they were turned out because they could not pay their rent.*"

WHERE THE BIG VOTE IN PHILADELPHIA CAME FROM.—Passengers over the Camden and Amboy Railroads state that the trains from Philadelphia have brought back but a few of well known New York "short boys" every day since the election. They all travel on *free passes!*

SUICIDE.—The following is an anecdote of Dr Johnson's:

Boswell once asked Johnson if there was no possible circumstance under which suicide could be justifiable.

"No," was the reply.

"Well," says Boswell "suppose a man had been guilty of some fraud that he was certain he would be found out."

"Why, then," says Johnson "in that case let him go to some country where he is not known, and not to the devil where he is known."

ONE MOMENT!

Daguerreotypes, Glass Pictures, Photographs.

It is not true that BURNHAM has given up the business of making Likenesses, as seems to be supposed by some. Burnham Brothers (formerly J. F. Burnham & Co.) are still at their old place, No. 12 Mill street, opposite Fern's Hotel, where they have recently been refitting the Rooms, and are now better than ever prepared to accommodate their friends and the public. They have also in large and fresh Stock of New Styles of Cases, Tickets, Frames, Frames &c.

GLASS PICTURES, (sometimes called "Ambrotypes") made daily! By the process we call *Lady Pictures*, only made daily! By the process we call *Lady Pictures*, only

PHOTOGRAPHS.

This beautiful process of producing and multiplying Pictures, at small expense, is daily gaining favor. We are prepared to take these Pictures correctly. It is fine for copying old Daguerreotypes, as very good Pictures may be made from poor Daguerreotypes. They may also be so reduced as to be much more desirable—while the best Picture to send by letter, as the expense of postage is saved.

We invite the attention of our friends to a specimens of this kind of Picture at our Rooms, No. 12 Mill street, Bangor.

FIRST GREAT

AUTUMN & WINTER STOCK

OF

DRY GOODS & CARPETING,

Embracing every variety of style and fabric, from the most popular establishments of

EUROPE AND AMERICA.

Our FOREIGN DRESS GOODS, SILKS, &c., are selected principally from the Stocks of celebrated French and English Importers in New York.

Our LINEN HOUSE-KEEPING GOODS, MUSLINS, EMBROIDERIES, &c., are of our own importation, direct from Irish and Scotch Manufacteries.

Our DOMESTIC GOODS, which compose by far the largest and most varied Stock in the city, are mostly obtained from Commission Houses and Auctions.

Our Stocks of RICH BRUSSELS, VELVET TAPESTRY, ENGLISH and COMMON CARPETINGS, are largely of our own importation, and the balance purchased from the first establishment in the country. The facilities which we possess for procuring these Goods enable us to sell them at Exceedingly Low prices.

Our UPHOLSTERY DEPARTMENT is fully stocked with Rich Curtain Damasks, Embroidered Velvets, Drapery Muslins, Drapery Tassels, Cornices, &c., &c. Having attached to our establishment an Upholsterer, who has had large experience in his business in New York and Boston, we are prepared to furnish, and put up all descriptions of Curtain and Drapery Goods, in private dwellings, hotels, steamers, &c., in the most modern and approved styles. He will also make and lay down Carpets in a manner entirely satisfactory to our customers.

Our BEDDING DEPARTMENT embraces a Large Stock of Hair, Palm Leaf and Excelsior Mattresses, Best Beds, and C-B Blankets, Marseilles, Lancaster, Quilted and Imperial Quilts, Feathers, &c.

In fact, we feel confident that we can offer our customers every inducement to make such purchases as they require.

SUPERIOR TO ALL OTHERS.

We are now issuing

The Progressive Readers,

By SALEM TOWNE, LL.D.,
and N. M. M. HOLBROOK.

THESE are emphatically and in all respects the best School Books ever published, and we confident will take the lead among all Readers. The authors as successful *practical* teachers and elocutionists and popular authors have been long and favorably known, and their names alone are a sufficient guarantee for the high character of the books, but in order to secure the highest possible degree of perfection in every department the services of a sufficient corps of other educational and literary men have been employed to assist.

The elementary books are beautifully illustrated by the best artists of the country, and the appearance and mechanical execution of the whole series is in advance of any and all others.

School Committees, Teachers, and others, are requested to examine for themselves. Copies furnished free for examination at our store, or sent by mail on receipt of address, to cover the postage. Postage rates are for the First Reader, 9 cents;—Second 12 cents; Third 15 cents; Fourth 18 cents; Fifth 24 cents. The series consist of the following;—

PROGRESSIVE PICTORIAL PRIMER.
PROGRESSIVE FIRST READER—Now Ready.
PROGRESSIVE SECOND READER—Now Ready.
PROGRESSIVE THIRD READER—Nearly Ready.
PROGRESSIVE FOURTH READER—In Press!
PROGRESSIVE FIFTH, or ELOCUTIONARY READER—Now Ready.

TELEGRAPHIC

FROM THE DAILY WHIG AND COURIER

LATER FROM EUROPE.

ARRIVAL OF THE

EUROPA,

AT NEW YORK.

SANDY HOOK, 12th.

The steamer Europa from Liverpool Saturday, Nov. 1st, passed here this morning. Her mail was sent on shore at this port, and telegraphed to New York city. The political news is unimportant.

The Liverpool American Chamber of Commerce publishes an address to the Southern Chambers, complaining of false packings of cotton.

A dispatch states, although perhaps on no authority, that to the French subject to evacuate the Danubian principalities, the Austrians are entitled a flat refusal.

The liabilities of Fox & Henderson, the contractors, are £350,000, one half unsecured.

There is no news from Spain.

The Neapolitan question remains precisely where it did. The only additional incident is that the government of Naples has addressed a circular of moderate tone to its diplomatic agents, and that the King of Sardinia sent Mons Dabormida, a Piedmontese confidence, to Paris on a secret mission.

The matter of the Danubian principalities has assumed prominence over other topics.—The French government, Journals assert definitely and peremptorily, that the Porte has determined to give from that the Austrians shall evacuate the Principalities, and the British the Black sea, but that they be a secret mutual withdrawal of forces.

The English Journals under the immediate direction of the government, deny on the contrary, that any such demand has been made by the Porte.

The papers generally, British, French and German speak in undisguised terms of the earnest towards the completion of an alliance between England and Austria, and between France and Russia.

It is now stated that Russia has a scheme in contemplation to refer the question of the Black Sea Steamships and Constantinople settlement.

The Russian Railroad concessions cover 2,000 miles and require £40,000,000. The Liberal Times recommends English capitalists to interest, and Napoleon has forbidden the Paris Merchants to take shares.

Numerous arrests of discontented workmen continue to be made in Paris. The position of the Bank of France is slightly better.

The Emperor and Court are still at Compiegne.

The Swedish Chambers were opened by a speech from the King, promising liberal measures.

The Turkish Ministry yet hold office, the Sultan having refused to accept their resignation.

News from Bombay of Oct. 3d, says the expedition against Persia, was still in preparation but had not sailed.

Vaccinations and Cholera had ravaged the Peninsular Scinde.

Liverpool Cotton dates are to Sept. 14 inst.—The season's supply of cotton was expected to be short. Further successes of the insurgents are reported.

Latest by Telegraph from London to Liverpool.

LONDON, Saturday, Nov. 1st.—Russia has formally excused Persia from the payment of instalments for the year of 1857.

The Times throws the greatest possible doubt on statements via Trieste, and publishes this last night's Globe, adding that, in the opinion of those best qualified to judge, the Turks not only not yielded, but was not likely to yield.

LIVERPOOL, Friday, Evening.—The Cotton Market opened steady this morning at the improved prices of yesterday, and subsequently declined considerably on the discovery of the error in the Circular. At the Exchange to-day there was a very active demand. It was not, however, beyond what was anticipated. For the week of the month, there has been an absence of gold exchanges.

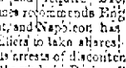
The London money market has undergone no change. Consols for money closed at 92¾ a ⅞, for account 92⅝ a 92¾. American securities dull and quiet, slightly lower.

Liverpool Breadstuffs Market.—Richard Cunliffe & Co. report Breadstuffs steady. Flour quiet and unchanged. Western canal, 30s a 33s; Ohio brands, Philadelphia 32s 6d a 33s 6d; Baltimore 35 a 37s; Canadian 35 a 38s; Corn dull, 1d lower; lower yellow and mixed 33 a 33s 6d; white 34 a 34s 6d. Wheat quiet and unchanged; white, 9s 9d a 10s 3d; red 8s 9d a 9s 3d.

Provisions are quiet, but generally unchanged. Lard nominal and dull.

LATER FROM CALIFORNIA.

ARRIVAL OF THE



George Law!

NEW YORK, Nov. 13.

The steamer George Law arrived to-day.

San Francisco, Oct. 29.—Since the sailing of the mail steamer of the 5th inst., we have to report a marked degree of activity in our silver districts. In fact, we have seldom been cognizant of so remarkable a fortnight of more extensive dullness in business than that which has characterized the one now closing. Orders for goods have come in very sparingly from the country, and the trade with purchases to exactly from the fleet of vessels which arrived during the past month, have had, with few exceptions, no occasion to enter the market for fresh supplies.

The fisheries, occasioned by the late rains have caused a large number of miners to abandon rivers and repair to the dry diggings. Others, wanting sufficient water, they are compelled for the present to remain in comparative idleness. This, of course, produces and affects, as country dealers are obliged to extend their credits, and in the absence of sufficient collections, are obliged to defer the period for the purchase of their winter supplies. Jobbing Haxall flour sold at $16; Mess pork $34; prime do $28 a $30; lard $25.

Departure of the Resolute.

WASHINGTON, Nov. 13.

Capt. Hartstein, in command of the English ship Resolute, has been fully instructed by Navy Department relative to the course to be pursued by him in the execution of his trust and takes out a letter to Lord Clarendon from the State Department, enclosing the joint resolution of Congress for the purchase of that vessel from the American crew who found it, and the intention of it to the British govt, and expressing the gratification of the administration, on behalf of the people of the U. S., in receiving this token of the friendly feeling by which our country is actuated. The time for the national courtesy is considered to be opportune in view of the settlement of the Central American question.

Elections.

NEW YORK, Nov. 13.

Returns from 80 counties in Indiana give Buchanan a majority of nearly 20,000. The remaining 11 counties will increase this majority.

OHIO, Nov. 13.

The returns from all the Counties in the State, except St. Clair, Wayne, Edwards and Crawford, give Buchanan a plurality of 5057, and Bissell 7733. St. Clair County will give a Republican majority and the others Democratic.

From Kansas—Arrival of Clothing, &c.

ST. LOUIS, Nov. 12

Advices from Lawrence 8th inst. state that 15 of the State prisoners on trial for murder were acquitted, but immediately re-arrested on charge of robbing the Franklin post office.

The Free State members taking measures to contest the seat of Whitfield in Congress, on the ground of illegality in this election.

A large quantity of clothing and provisions had arrived at Lawrence and was being distributed among the destitute.

From Nicaragua.

NEW YORK Nov. 13.

We have news from Nicaragua to the effect that Gen. Walker has appointed Vermon Torres, a native Nicaraguan, as Minister from that country to the United States. Col. Wheeler, the American Minister, was still in poor health, and was about to return home. Large accessions had been made both from New York and New Orleans. A number of recruits had joined his army from California. There had, however, been no further fighting, and it was the general impression that a proclamation of peace would be issued in a few days.

Various Matters.

NEW YORK, Nov. 11.

It is reported that Israel Andrews, the N. C. Consul General for Granada, has been removed by the President.

JAMAICA, Nov. 15.

New Orleans papers of Friday contain advices from Brazos Santiago, of Nov. 2d, comprising the surrender of Camargo to Vidaurri. His next advance would be upon Matamoras.

Markets.

NEW YORK Nov. 13.

Flour opened 6 cts better, but closes heavy common to straight State 5,66 a 5,75; Upper Lake 6,65 a 6,80; common to good Ohio 7,00 a 7,30; extra Genesee 7,50 a 8,00. Southern 6 cents better on common—mixed to good 7,15 a 7 50; fancy and extra 7,65 a 8,10. Canadian quiet—superfine 6,60 a 6,80; extra 6,85 a 7,75.

Wheat closes irregular—Canadian white 1,69 a 1,71; do. red 1,69; Michigan red 1,67 a 1,69; Ohio white 1,57 a 1,63; Illinois red 1,52 a 1,57. Southern white in transit 1 68; upper Lake spring Chicago 1,43; Milwaukie club 1,42 a 1,43.

To the Stockholders of the Penobscot and Kennebec R. R. Co.—You are hereby notified that a Special Meeting of the Stockholders, to be held at Kendall's Mills on Thursday, the 13th day of November, 1856, is withdrawn, and the following call is issued in place of it.

Special Meeting.

Penobscot and Kennebec Railroad Company.

THE Stockholders of the Penobscot and Kennebec Railroad Company are hereby notified that a Special Meeting of the Stockholders in said Company will be held at Darkers Hall, at Kendall's Mills, on TUESDAY, the twenty-fifth day of November, A.D. 1856, at 11 o'clock A.M., to act on the following subjects:

1st. To see if the Stockholders will ratify and confirm a case of location to the Androscoggin and Kennebec Railroad Company, executed by the Directors of the Penobscot and Kennebec Railroad Company.

2d. To see what measures the Stockholders will take to pay the floating debt of the Company.

By order of the Directors

ELIAS MERRILL,

Clerk of Penobscot and Kennebec Railroad Company.

Stockholders will pass free to and from the meeting over the And. & Ken. and Pen. & Ken Railroads.

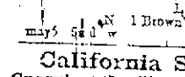
Clearly Recognized Lines 50 lbs Baggage Free

Through Tickets to San Francisco, including Transit across the Isthmus of Panama.



The Border of the Postmaster General of the United States Mail Steamship Company will be ready to be despatched from New York, precisely as per schedule, on the 6th and 20th of each month.

Passengers are booked at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers, *without any expense*. This is the only line running on the Through Tickets including meals, on the Isthmus.

Transit made in *one hour, entirely by daylight*, thus avoiding the great exposure by night on open boats to fever and ague, and 200 miles of canoeing on lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U S Pacific Mail Steamers will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents of the Isthmus, will be recognized by the Agent at Panama and Tickets thus signed can be obtained of the only *authorized Agent* for the Atlantic and Pacific Mail Steamship Companies in this city, C G HAMILTON, Agent,

AYER'S

CHERRY PECTORAL,

FOR THE SPEEDY CURE OF

Colds, Coughs and Hoarseness.

DR AYER, Lowell, Mass.

Dear Sir—I have used your Cherry Pectoral for the last twenty years, and consider it the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold. I have also used it in my practice, and for many years have shown my patients the formula from which it is compounded. I am, Yours, &c,

Dr. AYER, Lowell, Mass.—Dear Sir—I have used your Cherry Pectoral in my family for the last ten years, and have found it the best remedy for Coughs, Colds, Hoarseness, Influenza, Croup, Whooping Cough, Asthma, Bronchitis, and Consumption, that has ever come under my observation. I have also given it to my patients, and have never known it to fail to relieve the most distressing Pulmonary Complaint, when taken in season. Indeed, I have been astonished at the cures it has performed. Many of my friends, who have been cured of Consumption by your Cherry Pectoral, have also used your Pills, and pronounce them the best Cathartic we have ever used. Yours, &c,

Ayer's Cathartic Pills.

THESE Pills are the result of many years' labor and research, during which time we have had in view the production of the best purgative remedy that the skill of the chemist can devise. That they have attained a high degree of excellence, and are the best Cathartic we can make, is proved by the fact that they have won their way into general use in all parts of the country, and have long been the most popular medicine we have to offer the public. Their sugar coating preserves them always sound and fresh in any climate, and renders them pleasant to take. Being purely vegetable, no harm can arise from their use in any quantity. While they thoroughly purge the system of the foul humors which breed disease, they also stimulate the vital powers, restore the appetite and invigorate the digestive organs. Hence, even when they do not remove disease by their purgative effect, a dose will often change the current of the blood and the action of the viscera, and thus subdue the most formidable complaints. Cures are daily effected by them of Headache arising from foul stomach, Indigestion, Biliousness, Jaundice, Dysentery, Rheumatism, Gout, Neuralgia, Dropsy, Erysipelas, Scrofula, Ulcers, Eruptions, Tetter, Salt Rheum, Pimples, Blotches, Boils, Tumors, Tumors, Worms, Erysipelas, Scrofula, Ulcers, Eruptions, Tetter, Salt Rheum, Pimples, Blotches, Boils, Tumors, Worms, and all the various complaints that arise from impurity of the blood. Professor Humphrey's SPECIFIC Homœopathic Medicines

FOR

Families, Travelers, and others

THESE Medicines have been carefully prepared with a view of supplying families and others with a *Safe Remedy* for the more common diseases which occur in every day life. They include not only remedies for all the more common diseases such as Colds, Colds, Headaches, Derangements of the Stomach, Fever, Worm Complaints, Diarrhœa and Cholera, but also for those more sudden and violent diseases which require to be met on the spur of the moment, such as Cramp, Cholera, Dysentery, Inflammation, &c, for whose treatment it is very important at all times to have the proper remedies on hand. There are also remedies for those more delicate female derangements which a lady finds it odd difficult to name, but yet all freedom from which contributes so much to the happiness and enjoyment of life.

These Medicines are prepared in the form of small sugar Pellets, one of which is sufficient for the largest dose, and put up in boxes properly labelled. Each box contains about 40 Pellets, and 15 boxes for the different kinds are enclosed in a case accompanied with a small Manual or Book of Directions, giving a concise description of the diseases treated, and directions for giving the medicines, diet &c necessary for a cure. Cases also containing four or six of the small boxes are put up, which may be supplied with any of the 15 for such kinds as the option of the purchaser.

The advantages of Specific Homœopathic Medicines.—In prescribing, other Homœopathic Medicines a dozen or twenty will be recommended for a cough, a headache, diarrhœa or fever, and much care, study, and discrimination is required to select the proper one. But here you have a Specific Remedy for each particular disease, and hence able to use them with confidence and precision, without that labor and study which the business man has so ill able to bestow, and without that research and examination, which, to the mother, nurse or invalid, is so perplexing, annoying, and unsatisfactory. The advantages are so obvious as to commend them to all.

HELMBOLD'S GENUINE PREPARATIONS

BUCHU

HIGHLY CONCENTRATED

Compound Fluid Extract Buchu,

IS A CERTAIN, SAFE AND EFFECTUAL REMEDY

For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Secret Diseases, Obstructions, Retention or Incontinence of Urine, and all Diseases of the Sexual Organs, whether in MALE OR FEMALE.

From whatever cause they may have originated, and No Matter of How Long Standing

This popular and specific remedy is now offered to the afflicted and guaranteed to cure all those diseases for which it is recommended. It searches out the very roots of the diseases, drives out all the diseased fluids of the body, strengthens and invigorates and restores the whole system.

Certain, Safe and Permanent

Taken according to the directions and printed rules, which accompany each bottle, with other remedies invariably necessary, it can be taken with less trouble and expense to patients than all others. It is literally, and beyond question, the greatest remedy known for all diseases arising from habits of dissipation, and from indiscretion and exposure in life, whether in male or female, and will in a short time, in all forms of disease, effect a perfect cure.

Mercurius Quackery

Is not required in connection with this remedy, as it contains no mercury or other injurious drug, but is purely vegetable, and may be taken by persons of either sex without hindrance from business, or medical advice, and with the most perfect safety, in any climate, at any season, and under any circumstances.

SAFE CURES

It contains no narcotic, no opium or other injurious drug, but is purely vegetable, and may be taken by persons of either sex without hindrance from business, or medical advice, and with the most perfect safety, in any climate, at any season, and under any circumstances.

Delay are Dangerous

With this medicine you can cure yourself, and that too privately, and without exposure.

Try it, Just and Test it, and

This medicine speedily and effectually cures the most prominent forms of secret diseases, and eradicates every particle of infectious matter from the patient's system, and restores the blood to a healthy state of purity. It is a safe, certain, and speedy remedy, and is the only one which must be certain to cure, and which can be relied upon with confidence, by the afflicted, as a remedy that cures.

EVERY KIND OF HUMOR;

From the worst Scrofula down to all the common Pimples.

He has used it in over 1100 cases, and never failed except in two cases (both of which were of long standing), and in twenty years' practice has never found a case that would not yield to its virtues, when the directions were strictly followed.

One bottle is warranted to cure any one of the above complaints.

One to two bottles will clear the system of pimples on the face.

One to three bottles will clear the system of blotches.

Two bottles are warranted to cure the worst case of dyspepsia.

Three bottles are warranted to cure the worst case of liver complaint.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure the most inveterate case of rheumatism.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to four bottles are warranted to cure the most deep seated cases of scrofula.

Three to six bottles are warranted to cure the worst cases of erysipelas.

A benefit is always experienced from the first bottle taken, and a perfect cure is warranted when the above directions are strictly followed.

Read the following, which we have published in this paper once a week for the last six months, and we will defy any one to produce a case of equal importance that has been cured by any other medicine in the world, or by the same medicine, in the same length of time, as the following:

Having purchased over a thousand bottles of this invaluable medicine, I know the effect it has in every case. So sure as water will extinguish fire, so will it cure humor. I never sold a bottle of it but what it gave perfect satisfaction. I have had a trial at all ways and by all sorts of people, and I have never known it to fail in a single instance. There are many things about this medicine that appear to many surprising, first that it is so universally successful in such long standing cases, in some places quite plentiful, and not mentioned by name, until I discovered it in 1846—accidentally. I could cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the above discovery, I will state that in April 1853 I peddled it, and sold about a hundred bottles per day, and in April 1854 I sold over one thousand bottles per day, or 6 per hour.

Some of the first druggists who have been in business twenty and thirty years say that during their whole term of practice sweetness was never like it. There is universal praise of it from all quarters.

I may own pretension always kept it strictly for home use, but since the introduction among my friends, and the great good it would do for all, I have been induced to put it up for sale, and have been surprised at the unexpected success.

Several cases of apoplexy, fits, and disease which was of a confirmed incurable nature, have been cured by a few bottles. Only one penny will purchase a remedy sufficient to cure all cases of the most painful malady—there are but few which two cents' worth of it will not cure.

I know of several cases of Dropsy, all of them pronounced incurable by the best physicians, and given up to die, that have been entirely cured by the use of this medicine, and in every case it has given perfect satisfaction.

Certificates of cures and recommendations from those of the highest standing in the professions and physicians, will accompany each bottle prepared.

IMPORTANT NOTICE.

GARDNER CHILSON has just completed and taken patented in America, England and France his new invention—THE CONDUCTOR—and asks the special attention of those about erecting or remodelling their buildings, as well as dealers in Hot Air Steam or Hot Water Furnaces and all interested in Steam Power, to carefully examine the invention which *entirely changes the principle and character of Hot Air Furnaces, decidedly improves and gives new principle* and obviating all former objections to Gardner Chilson's Hot Air Furnaces, and the practical operations of a number of these Furnaces are tested during the past winter, points out a new discovery in science by which the most wonderful economy in fuel has been obtained, and clearly demonstrates that the waste heat lost from chimneys is enough to warm every dwelling in the city. By this invention the heat formerly lost is made to warm the house.

This is but one example in point—is the daily wonder of those who witness its results, and it becomes a matter of surprise that a plan so simple and so practical in its operation, should thus far have entirely escaped the notice of scientific men. We believe that no one who investigates this principle will be liable to use a Furnace constructed on any other principle, and we invite all who are intending to put in a furnace to call and examine them at my store before deciding.
